~~Med 5-91. St-1~~

In his letter No 5-86 of the 24th October 1891, the Senior Surgeon recommended the promotion to the next higher grade of sixteen 2nd and 3rd class Hospital Assistants "who had passed the qualifying "examination and completed "the required service in "their respective grades": he was thereupon asked to cite the rules under which the recommendation was made.

X No 804 A 5 Dec 1891

X No 2064 dated 10 Dec 1891

2. The Senior Surgeon replied that these Hospital Assistants "passed the "qualifying examination "and completed 7 years "required service in their "respective grades in ac- "cordance with para 63 Section V Volume I of the Medical

medical Code", except
Sampangy Mudeliar
who had formerly served
for about 7 years and then
resigned for some private
reasons; that he was sub-
-sequently entertained as
a 3rd class Hospital Assist
-ant on the understanding
that if he passed the quali
-fying examination he would
be promoted. Having passed,
he also has been recommend-
-ed for promotion.

3. Subjoined is the extract
from the medical Code
alluded to by the Senior
Surgeon.

"Medical subordinates
of the Hospital Assistant
grade are classified as
"first, second and third
'class Hospital Assistants,
'the classes being regulated
by

"by length of service. First
"class Hospital Assistants
"are those who have complete
"4 years service; second class
"7 years, and the 3rd class
"includes all those who
"have served a shorter perio
"than 7 years. It will be
observed from the above
extract that no mention
is made about passing
the qualifying examination
Paragraph 3-3, however, of
the medical code lays
down the qualifying examin
-ation and is the same as
that prescribed in Chief
Commissioner's notificatio
cited below.

W 10593/582 & 24-Dec 1891

4. A reference having then
been made to the Comptrolle
as to whether the medical
code is in force in Mysore,
this officer has replied

replied that the Medical Code is not in force in the Province, but that the promotion of Hospital Assistants is governed by the rules appended to the late Chief Commissioner's notification No 102 dated 7th June 1871. Sanction was thereupon conveyed to the promotion of 15 of the 16 Hospital Assistants recommended, subject to verification by the Comptroller of the fact of their having completed the required term of service in their present grades under the notification above noted which, and not the Medical Code cited by the Senior Surgeon, governs the case. A further report was also called for regarding

† No 4414 A 8-1-92

† No 4774-5/48 A 10-6.9

regarding Campaign, Medical
with dates of his first enter-
-tainment and subsequent
resignation together with
the lengths of the intervening
period of qualifying service,
and the date of his sub-
-sequent entertainment
and of his passing the pre-
-scribed examination. The
report of the Medical
Board was also called for
as required by the notifica-
-tion of 1871.

5. In reply the Senior × Surgeon refers to certain correspondence of 1870 conveying the Chief Commissioner's concurrence to the adoption of the Medical Code as a guide to all Medical officers under this administration and adds that "it was under

This

× No 2385 Dy 27.6.92

This authority that we have always referred to the "Medical Code in our correspondence". But Dr McGann overlooks the fact that the notification of 1871 was a subsequent order and therefore virtual by superseded the instructions of 1870 in so far as it related to the pay, examination & promotion of Hospital Assistants.

He submits a statement of the services of Sampangi Mudeliar from which it will be observed that this Hospital Assistant served as a Mysore stipendiary student for 3 years 9 months viz from 1/10/1874 to 30/6/1878; as a 3rd Class Hospital Assistant for 7 years 10 months viz., from

from 1st July 1878 to 30th April
1886, resigning on the 1st May
1886; that he was re-entertain-
-ed as a 3rd class Hospital
Assistant on the 1st July
1891 and passed the quali-
fying examination on the
20th September 1891. Dr
Mclaren adds that it
was on account of his former
service and his "domestic
calamity" that he was re-
-entertained as a 3rd class
Hospital Assistant with
an encouragement that
if he passed the examination
he would be promoted to the
2nd grade.

6. There having been a
break of 5 years and 2 months
in Sampang's Medical's
service, his former service
of 7 years and 10 months will
not count towards pension
under

under Section 270(a) of the Mysore Service Regulations 7. In regard to the Board for the examination of ~~x~~ Hospital Assistants, Dr. Welpum states that it was not held for some years ~~after~~ before he took charge of his present ~~x~~ office in 1885, and that the last Board met, so far as he can make out, in 1881 and that since he took charge in 1885, no Board has been held. He explains this by saying that the condition of things has altered since 1871. "At that time there were comparatively few Hospital Assistants and they were for the most part located at the Head Quarters of Districts, whereas.

"possible come in to ~~Bangalore~~ Bangalore and having the examination superintended by myself and the Chief Assistant, the written part consisting of questions set by me and the practical and oral part conducted at the bed side of patients in the Hospital and in the case of those stationed in distant parts of the Province whom it would be inconvenient to bring to Bangalore, they have been examined by the Civil Surgeons at the same time and in the same manner as those examine in Bangalore and in all cases only those found fit have been recommended for promotion."

I don't see why a Board shd not be constituted, Question papers set, questions and ~~Hospitals~~ at the Hd Qrs of Distts in wh the Hospl Asstts are stationed & the viva voce part conducted by the Municipal Medical Officers in charge of Distts

D

whereas, of late years they
are scattered all over the
Province, and if all those
who had to be examined
for promotion were ordered
into Bangalore much
public inconvenience
would be caused by the
closing of dispensaries
during their absence and
in addition there is only
one Senior medical
officer of Government
stationed here and there
is no Deputy Surgeon General
here who has any connection
with the Mysore Government
The practice which was
observed by Dr Houston and
which I have followed
and which I believe
is the best and which
I hope will be approved,
is having as many as
possible

Promotion. (11)

~~The~~ From the correspondence× which took place in 1870, it is clear that the Medical Code was only intended to be a guide to the Medical Officers in Mysore so far as it related to the medical and Sanitary administration of the Hospitals and Dispensaries in the Province. It cannot be held to regulate the pay and promotion of Hospital Assistants ~~and Medical Officers~~, which must be governed by the provisions of the late Chief Comrs. The Senior Surgeon may be asked to report if any modification is necessary in the Rules of 1871 -.

As regards Hospital Assistants Sampangi Mudr., though his resignation ~~of~~ entails forfeiture of past service for purposes of ~~the~~ pension, his service extending over 7 years and 10 months may be allowed to be reckoned as service for the purpose of qualifying him ~~to~~ for promotion to the 2nd grade -. as a special case

My dear Sir

I have pleasure in informing you that Govt. by the Medical Code which has been in force for two years and a half has done away with the 7 years 1870. In the 58 Section V Vol. 1 of that Code the Hospitals now recommended for promotion have completed (7) seven years in that position & the exception of T. Simpungly under who was re-entertained in July last. This Hospl Assistant was formerly in the Bengal Service but resigned his appointment owing to some Calamity in his family & is a time when he was ab & he recommend his promotion

to the 2d grade. The Senior
Surgeon in his entertaining
him said that he would
be promoted to the 2d grade
if he passed the exam[n].
Hence he was examined
and found fit for promotion.
Therefore some delay in
receiving of your Certi-

Examinations - 306. Before he can be advanced to a superior grade, a hospital Assistant will be required to pass an examination, for which he may present himself after a service of four years in each of the lower grades.

Promotions of sub-hospital assistants. 307. Promotion from the rank of sub-hospital assistant to that of hospital assistant will be made according to seniority, provided the subordinate is reported to be well conducted, and in every way efficient.

Of hospital assistants. 308. Second and third grade hospital assistants will be advanced to the first and 2nd grades respectively, after completing a service of five years in the lower grade, provided they are qualified by examination and good conduct.

309. The promotion of first grade hospital assistants to the rank of Senior hospital assistant will be made by selection for ability and merit, and this selection will depend on the official reports of their conduct and qualifications. Of Senior hospital assts

310. A Sub-hospital assistant or a hospital assistant, promoted for field Service, will be supernumerary in his new rank (his name being printed in italics in the nominal list) until the occurrence of the vacancy which would have promoted him in the ordinary course, when he will be absorbed in that rank. No promotions will be made in the room of a member of the hospital assistant class specially promoted for field Service. Promotion for field Service.

311. A Sub-hospital assistant promoted to the rank of hospital assistant for field Service, will reckon his service in the third grade from the date of such promotion, and will be promoted (subject to the

ruling contained in paragraph 308 as to examination and good conduct) to the second and first grade on the completion of 5 years' service in each of these grades. He will not, however, become a Senior Hospital Assistant until the occurrence of the vacancy which would have promoted him to that rank in the ordinary course.

To

The Chief Secretary to the
Government of Mysore.

Sir,

With reference to para 1 of Govt. Proceedings No 4774-5 / 48 dated 10th instant, stating among other things that the late Chief Commissioner's Notification No 102 dated 7th June 1871, governs the promotion of Hospital Assistants and not the Medical Code cited by me, I have the honor to request the favour of reference to the marginally noted Correspondence (Copies enclosed for ready reference) Conveying the Chief Commissioner's Concurrence to the adoption of the Medical Code as a Guide to all the Medical Officers under this administration.

2. It is under the authority Conveyed in the above we have always referred

To

* No 383 of 18th March 1870 from the Registrar, Sadr Court. By Mysore Post Stamp
To the Secy: to the Chief Commr of Mysore.
& No 4434 of 25th April 1870 from the Offg: Secretary to the Chief Commr to the Deputy Inspector Genl Hospitals

to the Medical Code in our Official Correspondence.

3. With regard to [illegible] para II of the Proceedings, a statement of the services of Hospital Assistant Sampang by Brood is herewith submitted. It will be observed that at the time of the acceptance of his resignation he rendered a service of 7 years and 10 months, besides 3 years and 9 months as a Medical pupil. It is in consideration of this and his domestic Calamity he has been reentertained as 3rd Class Hospital Assistant with an encouragement that if he should pass the examination, he would be promoted to the 2nd grade. This promotion examination he passed on the 2 6th September 1891.

4. According to the Pension Rules the Hospital Assistants former services viz: 7 years and 10 months Could not be Counted towards pension.

5. The Board referred to for the examination of Hospital Assistants was not held for some years before I took Charge of my present Office. The last held, as far as I can make out, was in 1881 when Brigade Surgeon Hamilton was President and Brigade Surgeon Henderson

Henderson was a member since I assumed charge of my present office in 1885 No board has been held. The Condition of things has altered since 1871, when the Notification of the Chief Commissioner referred to was issued, at that time there were comparatively few Hospital Assistants and they were for the most part located at the head quarters of districts whereas of late years they are scattered all over the Province and if all those who had to be examined for promotion were ordered in to Bangalore much public inconvenience would be caused by the Closing of dispensaries during their absence and in addition there is only one Senior Medical Officer of Government stationed here and there is no Deputy Surgeon General here who has any connection with the Mysore Government The practice which was observed by Doctor Hunter and which I have followed and which I believe is the best and which I hope will be approved, is having as many as possible Come in to Bangalore and having the examination superintended by myself and the Chief Assistant, the written part Consisting of questions set by me and the practical and oral part Conducted at

the bed side of patients in the hospital and in the Case of stations in distant parts of the Province whom it would be inconvenient to bring to Bangalore, they have been examined by the Civil Surgeon at the same time and in the same manner as those examined in Bangalore and in all Cases only those found fit have been recommended for promotion.

The question of Hospital Assistants' Examination now in ~~question~~ for decision was first mooted when the Senior Surgeon recommended Sampangi Mudali for promotion from the 3rd to the Second class as having completed the required number of years in the Third Grade and also passed the final qualifying examination for promotion to the next higher Class. The Government thereupon called upon the Senior Surgeon to report the date of Sampangi Mudali's passing the prescribed examination and to submit the report of the Medical Board prescribed in the Chief Commissioner's Notification of 1871, above quoted.

In reply Dr Mc Gann gave the
following explanation:—
"The Board referred to for the
"examination of Hospital Assistants
"was not held for some years
"before I took Charge of my present
"Office. The last held, as far as I
"can make out was in 1881 when
"Brigade Surgeon Hinston was
"President and Brigade Surgeon
"Henderson was a member. Since I
"assumed charge of this Office in 1886
"no board has been held. The
"Condition of things has altered
"Since 1871, when the Chief Com'rs
"Notif" was issued; at that time
"there were comparatively few
"Hospital Assistants and they were
"for the most part located at
"the headquarters of Districts,
"whereas of late years they are
"Scattered all over the Province
"and if all those who had to be
"examined for promotion were
"ordered in to Bangalore, much
"public inconvenience would
"be caused by the closing of
"dispensaries during their

Abstract

"absence and in addition there
"is only one Senior Medical Officer
"of Government Stations here
"and there is - - - - The
"practice which was observed by
"Dr Houston to which I have fully alluded
"and which I believe is the best
"and which I hope will be approved
"is having as many as possible come
"in to Bangalore and having
"the examination superintended
"by myself and the Chief
"Assistant, the written part con-
"sisting of questions set by me
"and the practical and oral
"part conducted at the bed
"sides of patients in the hospital
"and to the case of those Stations
"in distant parts of the Province
"whom it would be inconvenient
"to bring to Bangalore, they
"have being been examined by
"the Civil Surgeons at the same
"time and in the same manner
"as those examined in Bangalore
"and in all cases only those
found

"found fit have been recommended
"for promotion"

The Senior Surgeon was thereupon asked to report why a Medical Board should not be Constituted, Question papers set and questions answered at Headquarters of District in which the Hospital Assistants are Stationed, the viva voce part of the examination being conducted by the principal Medical Officer at District Head Quarters.
